Technical Data Sheet

PVC Stabilizer for Fitting

Code: CFS-604

Description:

LEAD based complex stabilizer for injection application is a complex injection compound with excellent heat and light stabilizing characteristics. It has well-balanced internal & external lubrication and imparts good and smooth surface finish to the products. CFS-604 is an excellent cost performance stabilizer for injection molding of pipe fittings for both pressure and non-pressure applications.

Specification:

Appearance	:	Powder/ Flake
Color	:	Gray / White
Lead content	:	43.9 ± 1%
Bulk density	:	0.65 g/cm ³
Moisture	:	1% Max.

Area of Application:

It is used as Stabilizer, Lubricants, and Plasticizer.

Recommended Mix:

Depending on the formulation, processing condition and the type of products, it varies in the range of 2.0 – 3.5 phr.

Packing Details:

Lined with a 25kg Polypropylene bag
