

شرکت کاسپین پلیمر
تولید کننده انواع استابلایزر و روان کننده های صنعتی
Caspian Polymer Co.

Technical Data Sheet

Paraloid

Code: CPP-402

Description:

It promotes the fusion of PVC, and increases melt strength allowing faster processing without melt fracture. CPP-402 is a process aid for cellular core of PVC pipe delivering high melt strength and a beneficial character to the extrusion process.

Specification:

Appearance:	Paste
Color:	Light Yellow
Bulk density:	0.32-0.53 gr/cc
Melting Point:	45 -60°C
Odor:	Odorless

Area of Application:

Used In cellular PVC to raise melt strength and Impart lubricity during extrusion, it can be used as an impact modifier for high output profile extrusion.

Recommended Mix:

Depending on method of production and formulation it would vary.

Packing Details:

176 kg / Iron Drum
