

Technical Data Sheet

Paraffin Wax

Code: CSPG-2

Description:

Paraffin Wax 3-5%

Specification:

Appearance:	Solid
Color:	Milky white
Viscosity at 100°C:	6.41
Melting Point °C:	58-60
Specific Gravity at 16°C:	822 kg
Refractive index at 70°C:	1.4410
Oil Content:	3-5%

Area of Application:

It is used as lubricant for various purposes.

Recommended Mix:

Depending on method of production and formulation it would vary.

Packing Details:

Slabs in Nylon, each 4-6 slabs in one carton box weighing 25kg \pm 3% Net
